

REMARKS

The amendment to the Specification is made to clarify and more clearly identify the priority claim. No new matter has been added.

In addition, in that the Examiner has not indicated approval and allowance of the drawings as filed, Applicants are assuming that the drawings filed on November 30, 2001 and the Replacement Sheet filed on February 20, 2007 are approved and allowed. Applicants spoke with the Examiner on November 29, 2007 and were told that the drawings are assumed “approved and allowed” unless notice of an error is received, and no additional action is required at this time.

CONCLUSION

It is respectfully requested that the Examiner enter the §312 Amendment, and that this Amendment should be included in the publication of the issued patent. Should the Examiner have any further comments or suggestions, please contact James Harrison at (214) 902-8100.

Respectfully submitted,

GARLICK HARRISON & MARKISON

Dated: November 29, 2007
